

Medicolegal Handbook for General Practice

Dr Sara Bird, Medico-Legal and Advisory Services Manager for MDA National Insurance, has been contributing regular risk management articles to the Royal College of General Practitioners (RACGP) journal Australian Family Physician.

The popularity of these articles prompted RACGP to suggest that Dr Bird pull together a number of the articles into a book that could become a useful resource for GPs.

MDA National is pleased to have been involved in the production of the book which provides practical advice using case studies, real life examples and risk management tips.

The Medicolegal Handbook for General Practice is available for purchase from the RACGP for \$22 for members or \$38.50 for non-members.

MDA National Members can receive a copy for FREE by filling out this order form and faxing it to (02) 9023 3370 or contacting 1800 011 255.
